

## 2012 E-Series Application Install

### To login as developer

- Open the Smart Hub
- Press "Tools" on the remote
- Select "Login"
- Select "Samsung account"
- Enter "develop" as your Samsung Account ID
- Enter "000000" in the Password field
- Press Login
- "develop" should now show in the bottom left of the SmartHub screen as being logged in.

### To install/update the Mediacast app

- Open the Smart Hub
- Confirm that you are logged in as "develop"
- Press "Tools" on the remote
- Select "Settings"
- Select "Development". If this menu option is missing then you are not logged in as "develop"
- Check the box to "Agree" to the "Terms of Service Agreement"
- Select "OK"
- Select "Setting Server IP"
- Enter the IP Address **45.77.67.59**
- Select "User Application Synchronisation" - this will download the app
- Once the app has downloaded it will appear on the SmartHub screen
- Select the App and enjoy
